Docket No. 8156/84320
Page 2

IN THE SPECIFICATION:

Please amend the paragraph starting on page 3, line 13, as follows:

A primary object of the present invention is to provide a novel ~~composition~~ composition for a flame-retardant flexible polyurethane foam comprising a melamine-based flame retardant, the composition being capable of providing sufficient flame retardancy even when using a general-purpose polyol, without requiring the use of a special modified polyol.
